SUMMARY

Motivated **Web Developer** with **1 year of hands-on experience** in developing responsive, database-driven web applications using **React.js, Node.js, Express.js, MongoDB, MySQL, REST APIs, JWT authentication, Socket.IO, Razorpay, and Cloudinary**. Skilled in building reusable UI components, role-based dashboards, CRUD workflows, API integration, form validation, real-time features, deployment, and performance-friendly layouts. Familiar with **AI-assisted development tools** including **ChatGPT, GitHub Copilot, Cursor AI, and Gemini** for debugging, code improvement, documentation, and faster delivery.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), HTML5, CSS3, SQL, Core Java

- **Frontend:** React.js, Context API, Tailwind CSS, Bootstrap 5, responsive layouts, reusable components, UI state management
- **Backend & APIs:** Node.js, Express.js, REST APIs, JWT authentication, role-based access, CRUD operations, Socket.IO
- **Database:** MongoDB, Mongoose, MySQL, schema design basics, data modeling, query handling
- **AI & Productivity Tools:** ChatGPT, GitHub Copilot, Cursor AI, Gemini, AI-assisted debugging, prompt-based code improvement
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Vercel, Render, Cloudinary, Razorpay
- **Core Concepts:** OOPs, API integration, authentication, authorization, MVC basics, deployment workflow
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Fast Learning, requirement understanding

PROFESSIONAL EXPERIENCE

Tushyer Technologies Pvt. Ltd | Web Developer | April 2025 - Present

- Developed and maintained responsive web application pages using **React.js, Tailwind CSS, Bootstrap 5, and reusable component structures**.
- Integrated **REST APIs** with frontend modules and implemented login flows, protected routes, CRUD forms, validation, loading states, and error handling.
- Worked on **Node.js, Express.js, MongoDB, and MySQL** based modules to support database-driven features and smooth data flow.
- Built and improved dashboard-style interfaces, admin screens, user-facing forms, and mobile-friendly layouts for real-world web applications.
- Used **Postman** for API testing, **Git/GitHub** for version control, and **Vercel/Render** for frontend and backend deployment workflows.
- Used **ChatGPT, GitHub Copilot, Cursor AI, and Gemini** to debug errors, refactor code, improve documentation, write cleaner components, and speed up development.
- Collaborated with designers and backend developers to deliver features on time while improving usability, responsiveness, and application stability.

PROJECTS

SHOPVERSE | React.js, Context API, Tailwind CSS

- Built a user-friendly **e-commerce website UI** with product listing, product details, cart, checkout, login, signup, and admin panel screens.
- Used **Context API** to manage cart data, user login state, and frontend application flow across multiple pages.
- Connected frontend screens with backend APIs to fetch product data, display details, handle authentication states, and improve user experience.
- Created responsive layouts for mobile, tablet, and desktop devices and deployed the project on **Vercel**.

ASTROUNIVERSE | React.js, Express.js, MongoDB, Socket.IO, JWT, Razorpay

- Developed a real-time astrology consultation platform with **user, astrologer, and admin dashboards**.
- Implemented **JWT authentication, role-based access control, Razorpay payments, real-time chat using Socket.IO, and Cloudinary uploads**.
- Used **MongoDB and Mongoose** for data modeling, query handling, and managing user, astrologer, chat, and transaction-related data.
- Hosted backend services on **Render** and worked on deployment-ready configuration for full-stack project flow.

EDUCATION

Kunwar Satyavira College of Engineering and Management, Bijnor - 2021-2025

B.Tech. - Computer Science & Engineering

S.M.S Senior Secondary School, Nehtaur, Bijnor - 2020-2021 | Intermediate (P.C.M)

CERTIFICATE

4-week **Java Development Training** - CETPA Pvt. Ltd. | Skills: Core Java, OOPs, Multithreading, basic program logic, and problem-solving practice.

ADDITIONAL HIGHLIGHTS

- Comfortable converting project requirements into responsive React components, API-connected forms, dashboards, and reusable UI sections.
- Experienced in API testing, deployment checks, bug fixing, Git workflow, and maintaining clean code structure for full-stack projects.
- Uses AI tools responsibly to debug errors, improve naming, refactor code, prepare documentation, and validate final logic manually.
